Our staff is well versed in the procurement regimes and the project management methods of various bi- and multilateral donors, from the World Bank to regional development banks, from the European Commission to Dutch Aid and from UN organisations to NGO's.

The Mission

The mission of IPA (*International Procurement Agency*) is to provide superior supply, procurement and advisory services to principals in all parts of the developing world on a strictly independent basis.

Emergency Assistance to Tsunami effected Area

On behalf of leading Dutch and American NGO's IPA arranged supply of approx 10.000 relief tents to Medan, Indonesia and Colombo, Sri Lanka. IPA chartered a DC-8 Aircraft and arranged supply of the complete consignment in 7 consecutive flights. Complete delivery finalised within 7 days. 2 additional charter flights were arranged for the supply of Mosquito Nets to Sri Lanka, Colombo.

Essential part for the reconstruction of the Region is the mobility of agencies involved in the reconstruction. IPA was therefore pleased to assist a leading United Nations Organisation by supplying 6 units of Nissan Pick-Up Trucks to Medan, Indonesia. Besides the supply and delivery of the Trucks, IPA also took care of the delivery and installation of Communication Equipment (Codan radios) into the units.

IPA faces North

As a result of a long tendering process, we are very pleased with the good news that SIDA, the Swedish Ministry of Development Cooperation, awarded us with a long term Framework Agreement for the provision of Procurement Services. This framework agreement enables us to extend our services to Sida Head Quarters in Stockholm, Swedish Embassies world wide and Sida's co-operation partners globally. This agreement is a strategic extension to our Procurement framework agreements with the Netherlands and UK Government. The Dutch, UK and Swedish Governments are in many countries developing a strategy of donor funding where IPA can play a supportive role as procurement service provider for all three parties.

Supply and delivery of Agricultural Equipment to Georgia

IPA provisioned a World Bank funded Project (Agriculture Research, Extension and Training Project) in Georgia with Agricultural machinery. The equipment is donated to farmers throughout Georgia in order to start independent farms in the field of Horticulture, Viticulture and Oenology. Supply consisted of Tractors (Wheel / crawler) and implements.

- Vehicle Spare Parts (GMC / Ford / Toyota / Hyundai) • Tools • Software • IT/EDP equipment
